

## **Morning Snorkel and Dive Sail**

Alii Nui frequents a scheduled coral reef abounding with colorful reef fish called Turtle Point four days a week or if you prefer Molokini, Alii Nui offers this snorkel destination three days a week. You can participate in a guided "snorkel safari" with a trained water specialist; snorkeling on a secluded reef abundant with sea life including the green sea turtle, an endangered species. All snorkeling equipment is provided complimentary including optical masks and wet suits. There are also "boogie boards" with viewers used as a floatation device. Instruction is given to individual needs and level of experience.

Increasing the quality of our charter, Alii Nui provides premium silicon masks, US Divers® dry snorkels and Velox™ vented fins. Also included as regular amenities are boogie boards, water noodles, wet suit tops, optical masks and large terry beach towels. Once you have had your fill of snorkeling, enjoy a refreshing "rinse-off" shower with one of four heated fresh-water showers.

### **Molokini:**

Molokini is a marine reserve with spectacular water clarity and a pristine coral reef. Rated one of the best snorkeling spots in the world, this reef has a variety of beautiful reef fish and animals. More than 400 varieties of fish are found in the Hawaiian waters and more than 25% of these are endemic, they are found only in Hawaii. Occasionally we see dolphins, Whales, Manta rays, and Hawaiian Monk seals.

Between the end of December and the end of April this trip affords a great opportunity to see Humpback whales in the National Marine Sanctuary.

### **Turtle Point:**

Turtle Point offers Maui's largest coral reef system nestled in the protected bays at the base of the West Maui Mountains. The caverns and ledges in the coral and lava, as well as the lava fingers nearing the surface create the perfect habitat for sponges, corals, octopus, fish, eels, and shrimp. The highlight of this reef is the number of **Green Sea Turtles** that gather here to be "cleaned" by fish known as the Hawaiian Cleaner Wrasse. The Green Sea Turtles are an endangered species and must not be touched or harassed. They are very curious animals and often allow snorkelers a good look from just a few feet away.

Between the end of December and the end of April this trip affords a great opportunity to see Humpback whales in the National Marine Sanctuary.

## **SCUBA DIVING**

Whether you are certified or not, you can go scuba diving on the Alii Nui. Enjoy a one tank dive into the beautiful waters of Maui. Visit with green sea turtles and swim among a rainbow of tropical fish while you keep a lookout for special ocean residents like the Octopus and Manta Ray amongst some of the most beautiful coral reefs in the world. All Non-Certified divers must complete a [medical questionnaire](#) before diving.

### **Snorkel Sail Menu**

Start the day with Scrambled Eggs & Bacon! Also enjoy an array of sliced fresh island Fruits, Croissants, Bagels, and a variety of Muffins. Cream Cheese, Butter, Honey and Jellies. Assortment of Fruit Yogurts, and freshly-brewed Kona Coffee, Tea and Juices. Your mid-morning snack consists of Maui chips, Crudités of Island Vegetables, accompanied with Ranch Dip and Salsa. Indulge in a bountiful lunch which includes Roasted Pepper & Garlic Hummus & Pita Bread, Kona Coffee, Award Winning Keawe/Guava Smoked Pulled Pork, Marinated Teriyaki Chicken Thighs, Classic Caesar Salad, Potato-Mac Salad, Cole Slaw, Corn Meal Dusted Kaiser Buns & Wheat Bread & Butter, Fresh Fruit Salad. Be sure to save room for the special Home Made Macadamia Nut Cookies, and Fresh Pineapple.
